University College London ◇ 30 Gordon St, London WC1H 0AN ◇ London, UK

EDUCATION

University College London *2022 - Present*
Ph.D., Financial Economics
Advisors: Wei Cui, Saleem Bahaj *London, UK*

The University of Manchester *2016-2017*
Master of Arts, Economics *(with Distinction)* *Manchester, UK*

Universidad Austral de Chile *2009-2014*
BSc., Business and Economics *(with Distinction)* *Puerto Montt, Chile*

FIELDS OF INTEREST

Macro-Finance, Financial Intermediation, Asset Pricing.

WORK IN PROGRESS

"Endogenous Risk Premia and Wealth Distribution" with Wei Cui.

We develop an infinite-horizon continuous-time incomplete-markets economy in which households face uninsurable idiosyncratic income risk and aggregate risk and invest through a financial intermediary sector. The intermediary's relative wealth endogenously drives risk premia, and return volatility, generating two-way feedback loops between asset returns and the wealth distribution.

"Entrepreneurial Finance with Two-Sided Robust Valuation"

I develop a continuous-time entrepreneurial finance model in which a risk-averse entrepreneur and competitive financiers are jointly robust to unspanned idiosyncratic uncertainty from technology adoption. Robustness shapes adoption, consumption–portfolio, and debt policy, determining state-dependent private equity and debt valuation and endogenous default. I apply the framework to AI adoption.

PRE-DOCTORAL WORK

"The Pass-Through of Loan-Loss-Provisioning on Mortgage Lending: Evidence from a Regulatory Change" with Mauricio Calani, *Journal of Banking & Finance*, 135, 106359, 2022.

We study the effects of a macroprudential loan-loss-provisioning (LLP) policy on mortgage lending by exploiting detailed administrative data and a policy change in Chile. The regulation reduced loan-to-value (LTV) ratios by 2.8% (mean) and 9.8% (median). We also find that banks with weaker balance sheets showed more extensive adjustments. The impact on interest rates was minimal. The results suggest that banks do not compete only in terms of interest rates but also in lending standards, and this latter channel can dominate the former.

RESEARCH EXPERIENCE

Research Assistant to Prof. Stephen Hansen, **University College London** *2025*

Research Assistant to Dr. Wei Cui, **University College London** *2023 -*

Economic Analyst, **Central Bank of Chile, Economic Research Area** *2019 - 2022*

Economic Analyst, **Central Bank of Chile, Financial Stability Area** *2018 - 2019*

TEACHING EXPERIENCE

University College London

Lead TA. MSIN0272 Options and Derivatives; MSc Finance & Data Science. *2026*

Lead TA. MSIN0107 Advanced Quantitative Finance; MSc Finance. *2025*

Supporting TA. MSIN0103 Asset Pricing, MSIN0105 Financial Econometrics; MSc Finance. *2023*

HONOURS AND AWARDS

PhD Scholarship. UCL School of Management fully-funded scholarship for doctoral studies.

Becas-Chile Scholarship. Chilean Government fully-funded scholarship for Master's studies.

Bicentenario Scholarship. Chilean Government fully-funded scholarship for BSc studies.

CONFERENCES AND SEMINARS PRESENTATIONS

(*) *Presented by co-author*

2021: 37th Symposium on Money Banking and Finance, 25th Spring Meeting of Young Economists

2020: 12th World Congress of the Econometric Society, Norges Bank Frontier Research in Banking (*)

2019: 3rd Sydney Banking and Financial Stability Conference (*), 19th International Finance Conf.

DISCUSSIONS

- *Monetary Policy, Binding Regulatory Capital Constraints and Bank Lending* by T. Cézanne (2024).
- *Monetary & prudential policy coordination: Impact on bank's risk-taking* by Bruno & Ngambou (2021).
- *China's Import Penetration and the Crowding-in of Mortgage Loans* by Yingdong Lin (2021).

RELEVANT COURSEWORK

2025: *Applied Stochastic Methods. (MSc Level).* Dept. of Mathematics, University College London.

2025: *SoFiE Summer School: Financial Machine Learning.* Yale SOM, Yale University.

2024: *Princeton Initiative: Macro, Money and Finance.* Dept. of Economics, Princeton University.

PhD Year 2: *Asset Pricing, Corporate Finance Theory, Financial Intermediation Theory, Empirical Corporate Finance, Financial Econometrics, Advanced Macro: Models with Heterogeneous Agents.*

PhD Year 1: *Microeconomics, Macroeconomics, Econometrics, Real Analysis & Probability Theory.*

OTHER RELEVANT INFORMATION

Technical Skills	Stochastic Calculus, Dynamic Programming, ODEs & PDEs, Numerical Analysis.
Computing Skills	Python, Julia, Matlab, Mathematica, Stata, LaTeX
Professional Service	Reviewer, Annual Meeting European Association of Young Economists
Languages	Spanish (Native), English (Fluent)
Hobbies	Mountaineering. Successful ascents on several Andes peaks over 5000 m.
CV Update	February 15, 2026.
